The United States Postal Service, in response to concerns from the City of Jenks and Jenks residents, conducted a survey of citizens living within the Jenks city limits but with Sapulpa and Bixby ZIP codes.

The survey was part of an official ZIP Code Boundary Review Process which sought to unify the City of Jenks to one ZIP code, 74037.

Citizens of Jenks living in the affected areas had the option to stay with their current Sapulpa or Bixby ZIP code or join the Jenks 74037 ZIP code. A simple majority of each affected area was needed.

Preliminary results show that in the area of Jenks with a 74066 Sapulpa ZIP code, 332 respondents voted to join the Jenks 74037 ZIP code while 7 voted for no change. Of the respondents with a 74008 Bixby ZIP code, preliminary results show that 98 households voted in favor of the change while 159 were not in favor of the change.

Based on the preliminary results, the United States Postal Service is planning to transition the Jenks residents with the 74066 Sapulpa ZIP code into the Jenks ZIP code of 74037. The United States Postal Service has not released a specific transition schedule at this time.
