Dear Ms Hilton,

Please add our very serious concern and disagreement to the proposed development at 106th and Elm. My husband and I bought a lot in Aberdeen Falls in 2009. We completed building in 2010 and have enjoyed the “country feel” for these many years. We have also had children and now grandchildren in JPS since 1993 and have seen the city evolve.

We would like to voice a very real concern to having the size and scope of what is on the table being built where planned. We are opposed to the project for many reasons. The ability to handle traffic, the added night time lights, the noise and congestion all next to many neighborhoods.

We bought the lot because it was quiet and serene and felt like you were in the country. What is proposed is diametrically opposite of that.

Jenks has jumped the gun on location. Please take what the citizens of this wonderful “small” town have to say and let’s change the trajectory of this project. There are better places for it.

Thank you for your time reading this and I do hope we can find an equitable solution.

Sincerely,
Melissa and Mac Stallcup
